Governor Promotes Missouri's Economy at International Biotech Conference

Gov. Matt Blunt will lead the state's 250-member delegation at the international convention of the Biotechnology Industry Organization (BIO), to be held April 9-12 in Chicago. Gov. Blunt, accompanied by Missouri Department of Economic Director Greg Steinhoff and renowned Missouri scientists, academic leaders and business leaders, will be promoting Missouri's quality of life and reputation for scientific advancement to attract

bioscience research and businesses to the state, reinforcing the notion to attendees that the bioscience industry is important to Missouri. [Read more...](#)

Director Steinhoff: Improving Technology Commercialization

Missouri institutions conduct around \$1 billion in research annually, and with this state of the art research comes many opportunities for commercialization. The Department of Economic Development has, over the course of the past several months, worked with major Missouri research institutions, leading technology commercialization entities, venture capital professionals, and technology trade associations to identify ways to assist organizations as they turn innovation into thriving companies able to compete in an ever-changing market. Sikeston to Get Ethanol Plant

Bootheel Agri-Energy LLC announced its decision to purchase the option on approximately 160 acres at the Sikeston Business, Education and Technology Park, during a news conference on March 31st. The land will be used to build a coal-fired 100-million-gallon-per-year ethanol plant, according to David Herbst, president of Bootheel Agri-

Energy. [Read more...](#)

Aggressive Movement in the Legislature

This week proved to be an eventful week for the Department of Economic Development in the state Legislature. As I spend more and more time working with the legislators designing bills tailored to meet our state's economic needs, I continue to notice and appreciate the time and energy invested in improving our economy by the legislature. With only five weeks remaining, the House and Senate are averaging 12- to 14-hour days presenting, voting, and discussing bills in committee and on the chamber floors. This pace continued to quicken as we race towards our May 12th finish line. [Read more...](#)

The Senate's Agriculture Committee has passed legislation requiring the state to produce an ethanol blended fuel. Supporters of this bill promote the economic savings to consumers and the additional benefit to the state's economy by using renewable sources produced in the state. Opponents of the bill say that incentives, not mandates, are the way to improve the state's economy. [Read more...](#)

Incentives Approved for Automaker

This week the Missouri House gave final approval to legislation granting tax incentives to the DaimlerChrysler plant in Fenton. The facility will have \$1 billion in total investment with \$54 million coming from the state. Of the \$54 million, \$16 million is for job training and \$16 million for industrial development bonds. [Read more...](#)

MERIC TRENDSTHINK

MO and IL Receive Special Recognition Award from U.S. Census Bureau

Missouri Department of Economic Development Director Greg Steinhoff accepted a special recognition award from the U.S. Census Bureau on Monday in St. Louis for Missouri's and Illinois' work on sharing cross-state commuting and employment data from the Census Bureau's Local Employment Dynamics (LED) program. MERIC administers the LED program for Missouri.

Understanding the nature of cross-state employment and commuting patterns is helpful to both states in economic and workforce development. The LED program has also been used in analyzing the economic impact of the proposed new Mississippi River Bridge in St. Louis and studying areas in each state that were recently affected by tornadoes. Purdy AmeriCorps Asked To Help!

Recently a rescue effort was coordinated at a cave near Mineral Springs. A call was placed to Purdy R-II School District, where twelve members of AmeriCorps, the Purdy Reading Coaches, have been trained in CERT (Community Emergency Response Team) by the Lawrence/Barry County Office of Emergency Management. Fully trained as emergency volunteers, they are able to coordinate a quick response within their community in the event of a disaster or other emergency. Responding to the call were Reading Coaches Vanessa Horn and Cathy Williams, who were willing to help where needed. Our congratulations go out to everyone who helped in the successful rescue efforts.

2006 Community Project of the Year Award

The Division of Business and Community Services is now taking nominations for the 2006 Community Project of the Year Award to be given at the Governor's Conference on Economic Development, September 25-27. The award recognizes the best example of a community development project. The project must show a

Retreat Held for Administrative Professionals

In honor of Administrative Professionals' Week, the Division of Workforce Development hosted an internal retreat on Monday for all staff in office support positions. In an effort to continue professional development, the half-day retreat covered topics such as retention schedules and archiving, e-mail etiquette, expense accounts, out of state travel procedures and training needs. It concluded with participants developing an action plan that relates directly to their position. The retreat was led by Donna Prenger, Deputy Director of Administration.

Annual Report Now Online!

The 2005 Annual Report on Workforce Performance: Showcasing Workforce Excellence is now available on-line at <http://ded.mo.gov/wfd/>.

In addition to Program Year 2004 Workforce Investment Act performance numbers, this report describes other Division of Workforce Development programs and outlines several initiatives that were especially noteworthy during the 2005 calendar year.

Missouri Trade Mission to China is Fast Approaching

China holds huge potential for American exporters, particularly in key sectors such as energy, environmental technology, biotechnology, medical equipment, construction material, services, and franchising. In 2005, U.S. exports to China grew 20.5 percent. In terms of U.S. goods exports, China was fourth, at \$41.8 billion, behind only Canada, Mexico, and Japan. Missouri's exports to China grew 36.5 percent in 2005, higher than the national average, reaching a historical high of \$499.5 million. Sign up now for your opportunity to join the Missouri Trade Mission to China. Registration deadline is May 2. [Read more...](#)

News Orleans College Moves to K.C. Area

Due to Hurricane Katrina, New Orleans-based Grantham University has relocated workers to the Kansas City area and has added around 160 additional employees, with more hiring expected by the end of the year. The new "campus" for distance learning, targeted at working adults, consists of 30,000 square feet of offices in the Zona Rosa center in the Northland.

2006 Job Market the Strongest in Five Years for New Grads

The reality of the 2006 job market is that it's the strongest in five years for the nation's 1.4 million new graduates, whatever their major, as seniors finally have the luxury of choosing among multiple offers from employers promising good pay and perks. Employers report that they're planning to hire 14.5 percent more new college grads this year than they hired in 2005 - and at starting-salary offers that are up 6.2 percent on average to \$45,723 from a year ago, the National Assoc. of Colleges and Employers reports. Marilyn Mackes, the group's executive director, says that engineering majors can expect to see the highest starting salaries, with their averages topping \$50,000. This is followed by computer-science majors, accounting and economics-finance majors at more than \$45,000 each. [Read more...](#)

Unilever, City Work to Protect Jefferson City Jobs

Jefferson City officials recently negotiated a new lease with Unilever in order to preserve jobs at the company's existing facility in Capitol City. The extended 10-year lease with a 10-year option means the property could remain owned by the city and the company will benefit from a local property tax break. [Read more...](#)

Chesterfield Firm Purchases Qpass

Chesterfield, Mo.-based software company, Amdocs, will spend \$275 million cash to purchase Seattle-based Qpass, a business system software provider. Qpass' major customers include Cingular Wireless, T-Mobile International, Vodafone, Sprint, SunCom, Alltel, US Cellular, One and Skype. [Read more...](#)

Trade Representatives Invite Business Leaders to Springfield Meetings

The Greater Ozarks International Trade Association, the Southwest Area Manufacturers Association and the Springfield Area Chamber of Commerce are sponsoring one-on-one meetings for business leaders interested in trade opportunities to meet with two of Missouri's Mexico trade representatives. Several meeting slots remain open to meet with Todd C. Nelson, director of the Missouri Trade and Investment Office in Mexico, and Patricia Meza, international trade specialist for Missouri in Mexico City. Tickets to the luncheon are \$15 per person in advance and \$20 at the door. To register for the lunch or an individual meeting, contact Bill Owen at (417) 887-5855 or bill.owen@umb.com.

AFS Trinity Power Corp., of Bellevue, Wash., is working with United Kingdom-based auto engineering company, Ricardo PLC, to build plug-in hybrid cars that can drive 250 miles on a single gallon of gas. The two companies are working together to raise an estimated \$150 million needed to commercialize the concept. Hybrid vehicles will be tested by Plug-In Partners, who say the electrical equivalent of one gallon of gasoline costs less than \$1. [Read more...](#)

**Information Tech Firms Looking at Vietnam**

Vietnam's highly literate, young workforce is looking very attractive to an array of foreign industries and services, including IT firms. Intel, the world's largest chip maker, will build a \$605 million microchip assembly and testing plant in the commercial hub of Ho Chi Minh City. Bill Gates was scheduled to visit the country last weekend to visit with students and call on Bac Ninh province to view the IT industry there. Vietnam trails the big leaders in IT; however, International Business Machines, Hewlett-Packard, Microsoft and Intel all have Vietnam offices. [Read more...](#)
